LIMOUSIN BREEDERS AND PROGRESSIVE COMMERCIAL CATTLEMEN,

The Annual Magness Land & Cattle Southern Division Spring Bull Sale is scheduled for Sunday, March 22, 2020, at the CMC Cattle Company Ranch near Miami, Oklahoma. This outstanding set of bulls once again features members of the 2020 National Western Stock Show People's Choice & Grand Champion Carload and People's Choice & Champion Lim-Flex Pen of Three. The bulls selling are Spring Yearlings that have ultrasound data, are semen tested and are ready to go to work.

Of the many factors that affect the bottom line in this business, the bull power we use in our breeding programs is the one factor we have the most control over, particularly in the commercial cow-calf segment of our industry. To that end, in this catalog, you will find EPD profiles that reflect the very best Limousin and Lim-Flex genetics available in the country. Furthermore, you will find ultrasound data and performance data including actual birth weight, adjusted weaning weight, adjusted yearling weight, adjusted scrotal circumference, ribeye area and percent IMF. When you analyze the bulls phenotypically, you will find them to be docile, structurally correct, muscular and easy fleshing. In addition, you can add the inherent value of heterosis to the performance of your calf crop.

While the beef cattle industry is experiencing a market correction, the fact remains, we are currently experiencing a market that is still good relative to 8 years ago. That said, the premium placed on genetically superior calves is also at an all-time high. The bulls that can sire market-topping calves are available in this sale as indicated by their visual traits and outstanding genetic profiles.

Once again we are offering a 5% discount with the purchase of 5-9 bulls and a 10% discount with the purchase of 10 bulls or more. Buyers also have the option to put one-third down sale day with the balance due October 15, 2020, for any bulls purchased in this sale. Lastly we're pleased to offer our extended bull warranty program that covers not only fertility issues but, also injury, loss of use or death (find further details on page 5).

We look forward to your attendance. Plan to join us for lunch, and should you have any questions don't hesitate to call John Pence, Austin Gottschalk, Mike Hathaway, Kiley McKinna or other members of the sale staff listed in the catalog.

Sincerely,
Gary Magness

	PLAN	DURATION	RATE
➤	#1	6 months	3% of Purchase Price
➤	#2	12 months	6% of Purchase Price

This plan covers the bull through the spring breeding season and is 100% of the purchase price less the salvage value when applicable.

PLAN 2 12 months • 6% of Purchase Price

This plan covers the bull for a full year which will include two breeding season (spring and fall) and one wintering period. In Plan #2 the warranty covers 85% of the purchase price less the salvage value when applicable.

Magness Land & Cattle guarantees to sell a bull that is sound and has passed a semen test by an accredited veterinarian.

Should this not be possible, we will issue a credit to go towards the purchase of another bull.

We will not however provide warranty for mismanagement.

While under our warranty the bull is covered for injury, sickness or death. We will service your needs with a replacement bull or sale credit. Should you have any problems with a bull please contact John Pence and he will work to make sure your cows get bred and you are a satisfied customer. We do have back up bulls set aside, which will be first resolution to any warranty issues. The Warranty Program is designed to protect your purchase during the most high risk time of a bull's life.

Exclusion to Warranty:

Any injury or death due to malicious, willful or intentional acts or mistreatment are considered fraudulent claims.

Should an issue arise with your bull please notify Magness Land & Cattle immediately by phone, 970-785-6170 or 970-396-3584. You will also need to contact a licensed veterinarian to diagnose and treat the animal and fill out a vet form. If the animal dies, a post mortem will be required.

Note: All buyers that opt to utilize the Magness Land & Cattle financing program will be automatically charged the Plan #1 6-month bull warranty on their invoice. This is designed to protect both the buyer and seller.

ANALYZING THE DATA

PERFORMANCE EPDS

CED Stands for Calving Ease Direct and is important when choosing sires to produce calves born easily. The higher the number the better.

BW Expresses the difference in birth weight on the progeny of the bulls being compared. Lower birth weight EPDs indicate lighter progeny birth weights.

WW Expresses the difference in lbs at 205 days on the progeny of the bull being compared.

YW Expresses the difference in pounds at 365 days on the progeny of the bull being compared.

MK Stands for Milking Ability and predicts differences in weaning weights from daughter's calves due to genes inherited for milk.

CEM Stands for Calving Ease Maternal and is important for choosing sires that produce replacement females that give birth to their first calf easily. The higher the number the better.

SC Stands for Scrotal Circumference and compares the difference expected in sons of the animal. Scrotal EPDs are a good indicator of age of puberty of both the sons and the daughters of the animal.

DOC Stands for Docility and is a predictor for animal behavior. A higher value represents genetics for calmer behavior.

CARCASS EPDS

CW Expresses the difference in pounds of carcass weight.

REA Expresses the difference in square inches of rib eye area. Larger values indicate larger ribeye areas.

YG Indicate genetic differences for yield grade and cutability of offspring. Lower values are more favorable.

MB Expresses the difference in the amount of intramuscular fat in the ribeye. Higher values are favored.

SMTI The mainstream terminal index takes genetics and economics into account to rank animals in terms of expected profit per carcass produced from weaning to mainstream market endpoints of yield grade 1s and 2s and Select to low-Choice quality grades.

CALVING EASE MEANS PROFIT

We have made a concentrated effort to bring you a variety of bulls that excel in the beef industry's No.1 profitability trait - calving-ease. Take note, we have gone the extra mile in our breeding program to propagate genetics that excel in terms of calving ease by utilizing sires that we feel are calving ease candidates.

LIMOUSIN TODAY - PROFIT TOMORROW

"In these times when the margin on feeding cattle is so slim, the difference between YG 1-2 and YG 3 can be the difference in a profit or loss on a set of calves. We run a lot of Limousin influenced cattle through our barn and they consistently top the market and make our customers money."

*-Jackie Moore, Owner/Operator,
Joplin Regional Stockyards, Missouri*

Limousin and Lim-Flex® (Limousin x Angus hybrid) deliver to your bottom line.

- ‡ Calving ease & calf vigor
- ‡ More pounds to sell at weaning
- ‡ Feed efficiency
- ‡ Tested & proven docility
- ‡ Cow & bull longevity
- ‡ Carcass merit

To find out more about how you can profit tomorrow with Limousin or Lim-Flex® bulls and females, contact a NALF regional manager, Andy Rest or Nathan Smith, or visit www.NALF.org.
