Limousin Breeders and Progressive Commercial Cattlemen,

The Annual Magness Land & Cattle Southern Division Spring Bull Sale is scheduled for Sunday, March 25, 2017, at the CMC Cattle Company Ranch near Miami, Oklahoma. This outstanding set of bulls once again features members of the Grand Champion and People's Choice Champion Lim-Flex Pen of Three and the Grand & Reserve Champion Carloads from the 2017 National Western Stock Show in Denver. The bulls selling are Spring Yearlings & Two-Year-Olds that have ultrasound data, are semen tested and are ready to go to work.

Of the many factors that affect the bottom line in this business, the bull power we use in our breeding programs is the one factor we have the most control over, particularly in the commercial cow-calf segment of our industry. To that end, in this catalog, you will find EPD profiles that reflect the very best Limousin and Lim-Flex genetics available in the country. Furthermore, you will find ultrasound data and performance data including actual birth weight, adjusted weaning weight, adjusted yearling weight, adjusted scrotal circumference, ribeye area and percent IMF. When you analyze the bulls phenotypically, you will find them to be docile, structurally correct, muscular and easy fleshing. In addition, you can add the inherent value of heterosis to the performance of your calf crop.

While the beef cattle industry is experiencing a market correction as it relates to 2016, the fact remains, we are currently experiencing a market that is still good relative to 5 years ago. That said, the premium placed on genetically superior calves is also at an all-time high. The bulls that can sire market-topping calves are available in this sale as indicated by their visual traits and outstanding genetic profiles.

Once again we are offering a 5% discount with the purchase of 5-9 bulls and a 10% discount with the purchase of 10 bulls or more. Buyers also have the option to put one-third down sale day with the balance due October 15, 2017, for any bulls purchased in this sale. As always, we fully and unconditionally guaranteed the bulls to be breeders for the first breeding season as it relates to fertility. New to this year's sale is our extended bull warranty program that covers not only fertility issues but, also injury, loss of use or death (find further details on page 22 & 23).

We look forward to your attendance. Plan to join us for lunch, and should you have any questions don't hesitate to call John Pence, Kiley McKinna or other members of the sale staff listed in the catalog.

Sincerely,
Gary Magness

THE MAGS PROGRAM

*You're not just buying a bull...
You're buying an industry-leading program*

➤ **0% FINANCING**

Pay 1/3 of purchase price at the sale. Balance is due October 15, 2017.

➤ **VOLUME PURCHASE PROGRAM**

Buy in bulk and receive a discount. Buy 5-9 bulls and receive a 5% discount.
Buy 10 or more bulls and receive a 10% discount.

➤ **UNCONDITIONAL ONE BREEDING SEASON GUARANTEE**

We take great pride in our customer service program. If your MAGS bull goes unsound for any reason, rest assured we will stand behind our product 100%.

➤ **GUARANTEED SIGHT-UNSEEN PURCHASE PROGRAM**

Our sight-unseen program is simple. If you can't attend, call Kiley McKinna, 402-350-3447 or John Pence, 970-396-3584, and give them your specifications and budget. We will provide you with a list of bulls we feel will meet your needs. If the bulls don't meet your specifications at delivery, you don't own them. We guarantee your bids will be confidential and your purchases will be executed at the lowest bid possible.

➤ **BREED-LEADING, PREDICTABLE GENETICS**

We have spent 30 years creating predictable, time-tested genetics with the combination of balanced EPDs and off the charts performance data. Our cattle perform on paper and in the pasture.

ANALYZING THE DATA

PERFORMANCE EPDS

CE Stands for **CALVING EASE DIRECT** and is important when choosing sires to produce calves born easily. The higher the number the better.

BW Expresses the difference in birth weight on the progeny of the bulls being compared. Lower birth weight EPDs indicate lighter progeny birth weights.

WW Expresses the difference in lbs at 205 days on the progeny of the bull being compared.

YW Expresses the difference in pounds at 365 days on the progeny of the bull being compared.

MA Stands for **MILKING ABILITY** and predicts differences in weaning weights from daughter's calves due to genes inherited for milk.

CM Stands for **CALVING EASE MATERNAL** and is important for choosing sires that produce replacement females that give birth to their first calf easily. The higher the number the better.

SC Stands for **SCROTAL CIRCUMFERENCE** and compares the difference expected in sons of the animal. Scrotal EPDs are a good indicator of age of puberty of both the sons and the daughters of the animal.

DC Stands for **DOCILITY** and is a predictor for animal behavior. A higher value represents genetics for calmer behavior.

CARCASS EPDS

CW Expresses the difference in pounds of carcass weight.

RE Expresses the difference in square inches of rib eye area. Larger values indicate larger ribeye areas.

YG Indicate genetic differences for yield grade and cutability of offspring. Lower values are more favorable.

MS Expresses the difference in the amount of intramuscular fat in the ribeye. Higher values are favored.

\$MI The **MAINSTREAM TERMINAL INDEX** takes genetics and economics into account to rank animals in terms of expected profit per carcass produced from weaning to mainstream market endpoints of yield grade 1s and 2s and Select to low-Choice quality grades.

Spring Yearling Bulls

LOTS 1-67

Being one of the largest suppliers of Limousin bulls in the nation is a job we take very seriously. Given the volume of bulls we sell and the variety of customers we must service, we work diligently to provide a unique cross-section of bulls both from a parentage standpoint, as well as from an end product standpoint. Needless to say, we are extremely proud of the yearling bulls brought forth to you this year for your appraisal. We truly feel there is something for everyone whether it be calving-ease, high marbling, impressive growth, or combination bulls that do many things very well. As customers, we value your comments and suggestions on how we can provide you an even better product in the future.

Hands down here is one of the sale highlights and one of the best individuals we've ever created at Magness Land & Cattle. He comes to you in a popular bred, super stout featured, heavy structured, massive made, deep sided, wide topped and muscular package. Note, he charted a usable 75 lbs of birth weight and posted an impressive 1,386 lbs of adjusted yearling. Take it one step further numerically, notice he ranks in the top 15% or better in six economically relevant traits - WW, YW, CM, CW, MS and \$MI. Furthermore, from a pedigree standpoint he's an own son of the popular A.I. sires MAGS Zodiac that topped our 2013 annual sale at \$30,000. The bottom-line is, if you're looking for that double homozygous combination bull that brings calving ease, growth, structural integrity and pedigree to the table, there's little need to look further than Dollar Beef.

MAGS DIMAS

Check out this sure fire crowd favorite sale day! Visually the terms big footed, deep bodied, thick and rugged describe this luncker perfectly. Numerically, this double homozygous son of the \$48,000 MAGS Anchor A.I. sire posted more than 750 lbs of adjusted weaning weight, over 1,400 pounds of adjusted yearling and quite simply projects to sire heavy weight calves that'll mash the scales down. EPD-wise he's one of the best in the entire offering; he ranks in the top 25% or better in 7 traits - WW, YW, SC, CM, CW, MS and \$MTI. Additionally note, he scanned an impressive 6.25 marbling score. Folks, make no mistake if you have a set of cattle that you want to make thicker, bolder ribbed and bigger numbered - we think he'll do it.

Attention breeders - big time herd bull alert! Sit back and study this homozygous polled, attractive made herd sire prospect that combines rib, muscle, pedigree and numbers to the highest degree! Visually, Dinaro is heavy structured, big bodied, bold in his rib shape and easy fleshing. On paper, notice this own son of the famed MAGS Xuzette donor cow posts an impressive birth to yearling spread - charting an actual 80 pound birth weight to an impressive adjusted yearling weight figure of 1,591 lbs. EPD-wise he ranks in the top 25% of the breed for nine economically relevant traits. Simply stated, Dinaro's unique combination of physical and numeric traits makes him a sale highlight and one that promises to hit the payout for you when put him into production.

Study the true muscle shape in this exceptional son of of the widely popular A.I. sire MAGS Ali! If you like your bulls to be wide topped, thick ended and rugged in their overall design then Dargen fits that description. Analyzing his impressive adjusted figures, take note that he ranked the among the very best in his contemporary grouping posting an adjusted weaning weight of 781 pounds and north of 1,450 pounds of adjusted yearling. Bottom-line is in the commercial cattle business pay weight is paramount and with that in mind, it makes this impressive individual one to take note of sale day.

Folks, here's a herd sire prospect that charts an impressive birth to yearling spread, projects to be a calving ease specialist and still carries the carcass merit that fits the mainstream cattle business. Note, he posts a marbling and \$MTI figure that ranks in the top 3% of the breed. Visually, this homozygous polled son of the A.I. sire Xpedient is sound footed, perfectly designed through his center body and carries more than enough muscle shape into the lower portion of his quarter. Super practical herd sire prospect that does a lot right.

Calling all cowboys - if heavy weight calves at weaning are what trips your trigger take a look at this homozygous polled, big middled, rugged designed, lunker sale day. EPD-wise, this full brother to lots 3 and 4 is very well balanced across the page and is highlight by both his weaning and yearling weight which ranks in the top 10% of the breed. Additionally from a data standpoint he excels, he posted a huge adjusted weaning of 831 lbs and more than 1,475 of yearling - a true standpoint among his stout contemporaries. There's little question next fall his calves will be in high demand.

Check out this double homozygous, popular bred, herd sire prospect that combines calving ease and growth to the highest degree. Notice, he posted a user friendly 78 lbs of birth weight and ranks in the top 10% for weaning and top 1% for yearling. Aside from his clear numerical advantages, this son out of the famed donor MAGS Unbelievable Wish presents a functionally sound look that's highlighted by his combination of structural correctness and body depth.

Calving Ease Means Profit

We have made a concentrated effort to bring you a variety of bulls that excel in the beef industry's No.1 profitability trait—calving-ease. Take note, we have gone the extra mile in our breeding program to propagate genetics that excel in terms of calving ease by utilizing sires that we feel are calving ease candidates.

BULL WARRANTY PROGRAM

In an effort to protect, simplify and enhance your MAGS bull purchasing experience we are pleased to introduce our NEW herd bull warranty program.

Magness Land & Cattle guarantees to sell a bull that is sound and has passed a semen test by an accredited veterinarian.

Should any bull purchased through the Magness Land & Cattle bull sale fail to be a satisfactory breeder or be unable to physically service a cow or heifer, he will be replaced with a bull of equal value. Should this not be possible, we will issue a credit to go towards the purchase of another bull. We will not however provide warranty for mismanagement.

While under our warranty the bull is covered for injury, sickness or death. We will service your needs with a replacement bull or sale credit. Should you have any problems with a bull please contact John Pence and he will work to make sure your cows get bred and you are a satisfied customer. We do have back up bulls set aside, which will be first resolution to any warranty issues. The Warranty Program is designed to protect your purchase during the most high risk time of a bull's life.

We offer the following options and are required to be paid on the day of the sale. It is the buyer's responsibility to purchase at the settlement desk.

<i>PLAN</i>	<i>DURATION</i>	<i>RATE</i>
➤ #1	6 months	3% of Purchase Price
➤ #2	12 months	6% of Purchase Price

BULL WARRANTY PROGRAM

Warranty Coverage

➤ **PLAN 1** 6 months • 3% of Purchase Price

This plan covers the bull through the spring breeding season and is 100% of the purchase price less the salvage value when applicable.

➤ **PLAN 2** 12 months • 6% of Purchase Price

This plan covers the bull for a full year which will include two breeding season (spring and fall) and one wintering period. In Plan #2 the warranty covers 85% of the purchase price less the salvage value when applicable.

Exclusion to Warranty:

Any injury or death due to malicious, willful or intentional acts or mistreatment are considered fraudulent claims.

Should an issue arise with your bull please notify Magness Land & Cattle immediately by phone 970-785-6170 or 970-396-3584. You will also need to contact a licensed veterinarian to diagnose and treat the animal and fill out a vet form. If the animal dies, a post mortem will be required.

Note: All buyers that opt to utilize the Magness Land & Cattle financing program will be automatically charged the Plan #1 6-month bull warranty on their invoice. This is designed to protect both the buyer and seller.

2-Year-Old Bulls

LOTS 68-94

As you study this big, stout set of 2-year-olds, please know we have taken every step available to ensure your purchase will serve you well for many years. These bulls have been rigorously culled while being developed with longevity as an utmost priority. Simply stated, these bulls should breed a lot of cows for many years. In addition to being able to handle heavy service, these herd sires represent the best sire lines and cow families available in our program, plus they have the built in convenience traits of homozygous black and polled, easy fleshing ability and inherent docility. We think this is the strongest and deepest set of 2-year-olds we have ever offered and we hope you agree.

This is a true sale feature and a rare buying opportunity to purchase fall possession in our 2016 & 2017 National Western Stock Show lead herd sire in our Champion Carloads. From a phenotypic standpoint, here's an individual that is flawless at the ground - he's big footed, relaxed in his pasterns, long striding and one that hits you hard when he's set in motion. Aside from that, he was admired for his front end design, depth of body, square hip and natural muscle shape. Numerically, he offers top 3% weaning weight, top 4% yearling weight, top 1% scrotal and top 20% marbling. Also worth noting, pedigree-wise he offers a tremendous amount of breeding versatility and is out of an exceptional cow that we admire for her udder shape, reproductive efficiency and phenotypic design. Simply stated, don't miss this well rounded individual sale day.

Big footed, deep bodied, thick and rugged describes this luncker. On paper this double homozygous herd sire prospect posted more than 828 lbs of weaning weight and projects to sire heavy weight calves that'll mash the scales down. Also, numerically take note he ranks in the top 1% for both weaning and yearling weight while charting a top 3% mainstream terminal index. The bottom-line is, if you have a set of cattle that you just want to make thicker and stouter - we're confident he'll do it.

Folks, here is a big time herd sire prospect that combines phenotype, pedigree and numbers to the highest degree. First, visually he's extra sound footed, great fronted, deep middled and projects a ton of muscle shape down his top and through the lower portion of his quarter. Pedigree-wise, this double homozygous son of the legendary Anchor A.I. sire is out of an impressive Deuce female that consistently produces eye appealing, heavy weight calves. Numerically, note his EPDs are staggering - he ranks in the top 5% for weaning weight and top 10% for yearling weight. This is truly a cowman's type of herd sire prospect.

	.28	.32	.28	.29	.19	.19	.14	.09	.24	.16	.19	.18	

This herd sire prospect is absolutely picture perfect! Starting at the ground, he's big footed, relaxed in his pasterns and very athletic on the move. From the side profile, he's long fronted, level down his top, extra bold in his rib shape and muscular appearing. On paper, he charts an impressive adjusted weaning weight of 800 lbs, ranks in the top 3% for weaning weight, top 1% for yearling weight and top 4% for mainstream terminal index. Bottom-line is, we think he holds the potential to be an elite herd sire in any program across the country.

If you like attractive patterned, big footed, thick made cattle then this double homozygous herd sire prospect will suit you as well as any. Note, numerically he posted a user friendly 78 pound birth weight and posted above average growth performance. Take it one step further, he is by the impressive MAGS Y Cry cow that is extremely reproductive efficient. March 25th, give this member of the champion carload a good study.
